This work package aims to provide suitable and innovative training and technology transfer and innovations among the network stakeholders and higher education institutions. Through improve the trainee skills required for their current job by participating and joint in different training programs.

**Partner P9, Sohag University**

**Description of the activities by Sohag University**

Date:

Number of Days: 4

Number of participants: 18

Number of Teaching Staff: 4

Number of Trainees: 14

Number of Technical Staff:

The workshop was held in the seminar hall for two hours on 7/3/2023, starting at eleven o'clock - Faculty of Science - Sohag University. The workshop was prepared and implemented by Prof. Dr. Ahmed Mohamed Hassanein - Project Coordinator at Sohag University - Professor in the Department of Botany and Microbiology - Faculty of Science - Sohag University.

Based on the activities of the plant clinic project, it was necessary to hold a workshop for farmers who belong to the environment surrounding the university. To complete the workshop within the university, specifically in the seminar hall at the Faculty of Science, Sohag, the Dean of the Faculty of Science was consulted in this regard. The point of view of the Dean of the Faculty of Science was that the farmers who work at the university and who belong to different villages in Sohag Governorate should attend the workshop.

The workshop was held to provide farmers with information, and in a way that was appropriate to their knowledge and cultural levels. The attending farmers were informed that the workshop was based on the activities of a project funded by the European Union with the participation of three European universities belonging to three different countries: Bulgaria, Hungary, and Italy. They were also informed that there are five Egyptian universities participating in the project: the universities of Sohag and South Valley in Qena Governorate, the Suez Canal University in Ismailia Governorate, Mansoura University and the University of Alexandria.

Co-funded by the  
Erasmus+ Programme
