

Quality assurance survey
Internal feedback for T3.3 online training
Italy/Hungary/Bulgaria/Egypt, 29 Nov-2Dec 2021

The following survey is set in order to implement the internal quality monitoring of the project. This phase will involve Partner Country (Egypt) university staff, involved in European training activities.

The results collected after this survey will be used in order to verify the PRO-DPCP project quality standards in compliance with the Quality Control and Monitoring Plan (QCMP). Moreover, the survey results will be discussed among all partners of the Consortium under the supervision of the Quality Control Monitoring Board (QCMB).

To be noted that this survey **is not** intended to evaluate each single course deployed to Partner Country (Egyptian) university staff, but it is intended to ascertain the effectiveness of the whole training activities with the focus of implementation the Professional Diploma in Plant Clinic and Phytosanitary Technologies.

Questionnaire

1)	Are the online training's objectives clear?	1	2	3	4	5
2)	Are the activities in line with online training's objectives?	1	2	3	4	5
3)	Are online training's contents adequate for the future Diploma implementation?	1	2	3	4	5
4)	Is online training's duration adequate for the future Diploma implementation?	1	2	3	4	5
5)	Is teaching material, provided along the online training, adequate for the future Diploma implementation?	1	2	3	4	5

6)

Are online training's contents easily transferable to your country?

1	2	3	4	5
---	---	---	---	---

7) Any more comment, suggestion, and proposal you would like to add:

Name: _____

Partner university: _____

*The evaluation scale is: 1 – Low, 5 – High

Participants Online course: 40-45

Participants Internal Survey: 18

- Prof. Dr. Mohamed Ahmed Abdel-Wahab Essa_Sohag
- Amal Abdelmaged Abdelgawad Habala_Alexandria University, Egypt

QUESTIONNAIRE SURVEY RESULTS

- 1) Are the online training's objectives clear? Average of ratings: **4,5**
- 2) Are the activities in line with online training's objectives? Average of ratings: **4,4**
- 3) Are online training's contents adequate for the future Diploma implementation? Average of ratings: **4,3**

- 4) Is teaching material, provided along the online training, adequate for the future Diploma implementation? Average of ratings: **4,4**
- 5) Is teaching material, provided along the online training, adequate for the future Diploma implementation? Average of ratings: **4,4**
- 6) Are online training's contents easily transferable to your country? Average of ratings: **4,4**
- 7) Any more comment, suggestion, and proposal you would like to add:

- Thank you for this informative workshop
- More than wonderful effort from the organizers (Francesco Vinale, Laura Gioia) and the participating countries (Bulgaria, Hungary, and Italy) Distinguished lecturers... but in need of practical applications.
- I am really happy with this great opportunity and what an opportunity to develop my knowledge and skills, but from my point of view that the training period is to a small extent, maybe if it was two weeks it would have been better.
- It was a great honour for me to attend an online training with such respectful professors and I hope reaching them again, however, I have some comments aiming the improvement of the online training later:
 - * The PPT presentation was not that beneficial for me and the material was not shared with us.
 - * Putting the soft skills trainings in consideration will be a plus.
 - * I expected being introduced to the new diagnosis, statistics and Meteorology programs but all I got was the presenting of study systems only.At the end, I really appreciate your great efforts during the online training. Thanks.
- Everything in the training is so superb, thanks for your efforts.
